## “Maybe” List

*In January nursery sources said these plants are a “Maybe” for this sale due to the whims of Mother Nature and an increased demand for native species. If you are interested in any of these species, order here. We may not know if available until just before the sale.*

## **BARE ROOT SECTION**

- In addition to native plants, we offer a Bare Root Section consisting of fruit-bearing trees, shade trees, and ornamental trees and shrubs. Most of these bareroot trees and shrubs are not true PNW “natives”, but they have been selected for their compatibility to thrive in our area but will not out-compete plants in our local native habitat.
- These are not available as pre-order, but only during sale days.
- We will not know which species will be available until the day before our Sale.
- No caneberries this year.

*Update 2/23/2023*
